[About New Jersey](#)

Recently, President Bush delivered the annual State of the Union Address detailing his plans for our nation. The President's speech talked a great deal about ownership; but promising ownership while limiting opportunity does not add up. It must become easier, not harder, for Americans to create their own opportunity. That is why I am working to make college more affordable, protect and create good jobs here at home, help small businesses grow, encourage home ownership, and make sure that quality health care is both affordable and accessible. I encourage you to watch the attached video file that details my vision for ensuring that opportunity for all Americans.

It is a privilege to serve the residents of New Jersey's 13th Congressional District. I remain committed to championing the priorities that you care about and look forward to continuing to serve you.
